TECHNICAL SKILLS
- Tech Savvy
- Python (Beginner to Intermediate Level)
- Video Editing
- Photo Editing

WORK TOOLS
- React js.
- Tailwind css
- Php

CORE WORK SKILLS
- Problem Solving
- Teamwork & Collaboration
- Adaptability
- Time ManagementS

PROFILE SUMMARY

A highly motivated and detail-oriented individual with a year of experience as an encoder, seeking to transition into the dynamic field of web development. Possessing strong time management and multitasking skills, I excel at efficiently handling multiple tasks and meeting deadlines. My proficiency in video and photo editing, including expertise in Adobe Premiere, has honed my creative eye and technical abilities. I am proficient in Python, HTML, and CSS, demonstrating my foundational understanding of web development principles. Eager to leverage my existing skills and passion for technology to build a successful career in web development.

EDUCATION & CERTIFICATION

YOUR PROGRAM OR DEGREE TITLE
Phinma University Of Pangasinan | 2025

WORK EXPERIENCE
- 1 year as encoder in massage mnl

PROJECTS
List down your work-related projects that showcase your technical and core work skills.
Shadow's Grip
Link to project : https://github.com/Kiahrii/Shadow-s-Grip/tree/FINAL
Nature/Type of the Project | Length of time you worked on it
Laptop, Python, Tkinter, Pygame, Html, Css
Describe your project in one sentence
A text-based maze game that involves navigating with branching paths.
- Riddles: Riddles are integrated into the maze, adding a layer of challenge and requiring players to think critically to solve them and progress.
- Time Pressure: The chase element introduces a timer, adding urgency to the player's decision.
- Chase Sequence: The pursuer element introduces danger and urgency, forcing the player to make strategic decisions to evade capture.
